MAIL BID SALE #2  
AND FIXED PRICE LIST

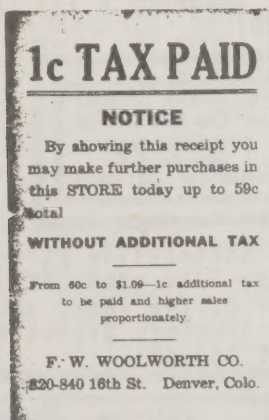

CLOSING NOV 30 1982

Here is an offering of outstanding collectibles in several areas: Sales Tax Tokens, Magician's Tokens, California and Other States' Merchants' Tokens, Large Lucky Coins, Wooden Money, Automotive Items, U.S. and Franklin Mint related items, Local Commemoratives and many other areas. There should be something for just about everybody.

I am soliciting and receiving consignments for my next list to be mailed in January. Please write and let me know what you have. I will also be mailing specialized fixed price lists from time to time on Sales Tax Tokens, Gaming-Related Pieces and Amusement tokens. Please let me know if you would like to receive any of these.

SALES TAX TOKENS

The group for sale here is an especially outstanding one. Many of the most scarce pieces are listed. Numbers given will be by Chits and Chislers. A value in parentheses indicates what that item sold for in the Paul Cunningham auction of October, 1981. If they have not been on the market before, then the rarity number is given.

1. Denver, CO F.W. Woolworth 1c Tax Paid Receipt in pink paper (CO#17, R-9), about fine. Very fragile. Included is a photocopy of CO#16, a Colorado Sales Tax License of 1935 and a trimmed mimeographed set of instructions on how to use the 1935 State tokens. Never before offered on the market!

2. Another piece never previously for sale, the MO#2 pattern piece for the 5 Mills of the second cardboard series. This has a blank reverse, but is the smaller size of cardboard. It is an R-10 that is probably unique. Condition is about VF. Apparently it was put into circulation along with the regular issue. Bidding for scarce or rare pieces went from \$25-75 on the Cunningham auction.

3. AL#16, the 1 Mill light grey fiber with two circles around the numeral of value (\$3.05). Nice unc.

4. AL#19, the 1 Mill bright blue fiber token, apparently much scarcer than previously thought. Another nice unc (\$21).

5. CA#s 19b, 21b, 25b, 28b - lot of four Warboy's Large Print Strips of ten tokens in cardboard Unc (R-8).

6. CO#12 2 Mills red fiber, one side is counterstamped "1400" apparently as a control number for production of the pieces, about VF. Never before on the market!

7. Arcola IL#9, red cardboard 1/2 token, about VF (\$9 in unc).

8. Jacksonville IL#18a. Brass 1/4, crossbar to right, F-VF (\$3.75 in EF).

### Sales Tax Token Errors

Sales Tax Tokens, like U.S. coins, were manufactured with their appropriate share of striking and printing errors. Although there were relatively few of these errors in comparison to the numbers issued, there are enough for fruitful study, although they are generally scarce. The Cunningham auction elicited a rather small interest. I feel that they are the 'sleepers' of this field.

63. CO#7a. One-Fifth Cent square alum, design about 25% off-center, with center hole correct. F-VF.
64. CO#8. 2 Mills round alum. Has regular cross center punch, but a second punch obliterates one of the '2's. There is also a small clip at the bottom. EF.
65. CO#8 or 9(?). A round blank with the cross center punch! Very dramatic. However, there is a large edge ding. EF.
66. CO#11. 2 Mills red fiber, with an edge clip at 9 o'clock UNC.
67. IL#5. Square alum state issue, lower third missing, UNC. I have seen another like this.
68. KS#2. 1 Mill alum with no center hole. UNC.
69. MO#17. 1 Mill large cardboard. The black design has been printed on the buff cardboard without the blue background. Then the wrong (orange) color was printed over the black, somewhat obscuring the main design. There is a smudge of blue on the obverse. Rather dramatic. VF.
70. MO#20. 1 Mill smaller cdbd. with reverse printing. Some of the blue and black design of another token has transferred to the reverse in the process of drying.
71. MO#23. 1 Mill zinc with pebbled map. The reverse shows a portion of an incuse reversed obverse design, obviously the token was struck on top of another in the collar. Very dramatic error. VF.
72. OK#7. 1 Mill Token/Assistance. Reverse has been struck over another token. Reverse reads very faintly "HUGH HOAG/SUPREME COURT"

Please don't forget to let me know about material you would like to consign and/or sell. I am especially interested in Sales Tax Tokens and world-wide pieces with an emphasis on Spanish-American and British Isles pieces. However I have extensive experience with the tokens of other foreign areas. For those who would like attributions done on foreign-language pieces I charge \$2.50 per piece plus postage. If I cannot attribute a token, then I charge only the postage.

Other tokens which are selling well are better merchants' tokens, gambling related pieces and modern amusement tokens, especially the new video game parlor pieces. Just feel free to drop a line. It may turn out to be worth your while.
